

Victor Muregi

Polyglot Software Engineer | Founder @ MuregiScore Technologies

Nairobi, Kenya | +254 797 846 126 | i.am.muregi@gmail.com | [GitHub](#) | [LinkedIn](#)

Summary

Highly motivated and results-driven **Polyglot Software Engineer** with 3+ years of experience building reliable, scalable, and impactful software solutions. Founder of MuregiScore Technologies, specializing in **M-Pesa integrations**, enterprise systems, and automation for the African market. Proficient in **Java, Python, C++, JavaScript (React, Node.js), and VB.NET**. Passionate about leveraging technology to solve real-world problems and empower businesses.

Technical Expertise

Languages

Java (Spring Boot, Multi-threading), Python (FastAPI, Pandas, AI/ML), C++ (System Apps), JavaScript (React, Node.js, Express), TypeScript, VB.NET (Desktop Tools), SQL

Backend & APIs

Spring Boot, Node.js, Express.js, FastAPI, Django, RESTful APIs, Webhooks, OAuth 2.0, JWT, M-Pesa Daraja API (STK Push, C2B, B2C)

Frontend & UI

React, HTML5, CSS3, Tailwind CSS, Responsive Design, UI/UX Principles

Databases & Tools

PostgreSQL, MySQL, Redis, Docker, Git, GitHub, Vercel, Railway

Specializations

Payment Systems Integration, Multi-threading, System Design, Performance Optimization, Automation, Enterprise Software Development, Edge Computing

Experience

Founder & Lead Engineer | MuregiScore Technologies | Nairobi, Kenya

2024 – Present

- Founded a software development firm focused on building impactful solutions for African businesses.
- Led the design, development, and deployment of 5+ production-grade applications, including EduCore, FinanceFlow, and AutoM-Pesa.
- Managed full software development lifecycle from requirements gathering to post-launch support.
- Successfully integrated M-Pesa Daraja API for multiple clients, processing KES 5M+ monthly with 100% accuracy.

Software Developer (Freelance) | Remote

2022 – 2024

- Developed custom web applications and automation scripts for various clients using Python, JavaScript, and Java.
 - Provided IT tutoring and mentorship to students and career switchers.
 - Gained hands-on experience with diverse tech stacks and client requirements.
-

Key Projects

EduCore School Management System

- **Description:** Comprehensive web-based platform for school administration, student records, and automated report generation.
- **Impact:** Reduced report generation time by 70% (2.3 seconds for 1,000 students), significantly improving administrative efficiency for 50+ schools.
- **Tech Stack:** React, Node.js, Express.js, PostgreSQL, Redis

FinanceFlow Enterprise

- **Description:** High-performance financial reporting and transaction processing system for Saccos.
- **Impact:** Achieved zero audit failures and 100% data accuracy, handling 10,000+ transactions per minute and KES 5M+ monthly volume.
- **Tech Stack:** Java (Spring Boot, Multi-threading), PostgreSQL

AutoM-Pesa Reconciler

- **Description:** Python-based automation tool for real-time M-Pesa payment reconciliation and daily reporting.
- **Impact:** Saved businesses 10+ hours of manual work per week, with 100% duplicate detection and automated report delivery.
- **Tech Stack:** Python (FastAPI, Pandas), M-Pesa Daraja API, PostgreSQL

StockGuard Desktop

- **Description:** Offline-first inventory management application for retail, built for low-connectivity environments.
 - **Impact:** Provided reliable stock tracking and sales management for rural retailers, ensuring business continuity without constant internet access.
 - **Tech Stack:** C++, VB.NET, SQLite
-

Education

Diploma in Computer Science | Kiambu National Polytechnic | Kiambu, Kenya

2023 – Present

- Currently pursuing a diploma with a focus on software engineering principles and data structures.
-

Awards & Recognition

- **Top 5 Innovator**, Kiambu Polytechnic Innovation Challenge (2024) - For EduCore System.
 - **Safaricom Daraja API Champion** (2023) - Recognized for robust M-Pesa integrations.
-

Portfolio & Code
